## EDITORIAL

I remember 1995 as the last of the great years for popular music, up there with 1957, 1963, 1965, 1967 and 1977. Am I right?

What makes a year great for music? First of all, it's the music and those who are making it. I don't suppose there are more classics in one year compared to another, it depends on how essential the classics are. Look at any list of classic albums and *Oasis' (What's The Story) Morning Glory* will be somewhere near the top. *Radiohead's The Bends* and *Pulp's Different Class* will also be in the list, but *Blur's* greatest, *Parklife*, was issued in May 1994 and *Portishead's Dummy* in Sep 1994 (though both charted through most of 1995). We can add *Paul Weller's Stanley Road* and *Tricky's Maxinquaye* to the list, though neither act were part of the BritPop phenomenon.

Most of all, though, a great year has a buzz to it. There are great bands and artists, but the whole phenomenon spills over from the relatively confined pages of the music press into the national psyche. It's when the newspapers, television and radio news carry stories about popular music and the culture that goes with it. Teddy Boys and *Elvis* joining the army in 1957; "Beatlemania" was created by the press in 1963 following the *Beatles* performance at the Royal Variety Show; Mods and Rockers and Dylan going electric stole the headlines in 1965; *Sgt Pepper*, the Monterey Festival and the hippies filled the front pages in 1967; and wherever *Sid Vicious* threw up in 1977, the press were there.

For the week ending 28th August 1995 there was a similar defining moment: both *Blur* and *Oasis* had new singles out, and which of them was to be crowned kings of Britpop? It's rather rare for major artists to compete in this way. *The Beatles* and the *Stones* were rarely in the Top 10 together: the closest they came was in 1964 when *Little Red Rooster* (and why wasn't that on the recent *Stones* double CD collection?) was at no.1 and *I Feel Fine* entered at no.6, and promptly dethroned the *Stones* the following week.

Another defining moment came on 14th Oct 1995, when the new *Oasis* album (*What's The Story) Morning Glory* entered the charts at no.1. It was perhaps the most anticipated album since the *Beatles' Sgt Pepper* in 1967. Initially, the album spent a solitary week at the top of the charts, but it sold consistently and well. Within a fortnight it had been awarded the expected double-platinum (600,000 sales). A third star followed on 25 Nov, a fourth by 9 Dec and a fifth on 30 Dec. In 1996, sales continued to soar: six times platinum by 27 Jan; a seventh (and a two million sale) by 2 Mar (the same week that *Don't Look Back In Anger* entered the singles chart at no.1); an eighth by 30 Mar; a ninth by 8 Jun; a tenth (and a three million sale) by 10 Aug; an eleventh by 12 Oct; and a twelfth by 14 Dec. It was now one of the biggest selling albums of all time, rivalling *Dire Straits' Brothers In Arms* and *Michael Jackson's Thriller*. A thirteenth star came on 18 Oct 97, after a chart run of 106 weeks: it was then the second biggest selling record ever in Britain (but soon to be overtaken by *Elton John's Candle In The Wind 1997* single) and the only album ever to be certified thirteen-times platinum. Finally, *Oasis* caught up with *Sgt Pepper*: both have reported sales of 4.2 million (the fourteenth star was shown on the album's re-entry on 28 May 2005, the year of the album's tenth anniversary). Sales of the *Beatles* albums have never officially been audited, and no sales awards were ever made, so the history of *Morning Glory* remains the best documented sales record in Britain ever. Some polls have even suggested that *Morning Glory* is the best album ever, dethroning the *Beatles* hallowed albums *Revolver*, *Sgt Pepper* and *Abbey Road*.

## PREVIOUS BOOKLETS

Readers might like to know that this booklet is the latest in a series that began in 1983. From 1983 to 1995, the annual CHARTWATCH summary booklet was compiled by *David Longbottom* from the charts published in RECORD MIRROR and MUSIC WEEK. Up until early 1991, this means a Top 100 singles and album chart. The demise of RECORD MIRROR in 1991 meant that both charts were reduced to a Top 75. In 1996, *Tobias Zywietz* took over compilation of the booklet, and used the charts in HIT MUSIC which extended the MUSIC WEEK charts to a Top 200. All previous booklets are available from:

Chartwatch, 34 Brybank Road, Hanchett Village, Haverhill, Suffolk, CB9 7WD, UK

The booklets for 1985 to 1995 cost £2.00 each. Similar summaries have been produced for the years 1961, 1962, 1963, 1964, 1965, 1966 and 1967, but including only singles charts; these are £1.20 each. A summary booklet for the 1983 singles chart, but without chart runs, is available for £1.40, and a similar booklet for 1984, but including both singles and albums charts, costs £1.50. The booklets from 1996 onwards cost £2.50 each. Please send a cheque (in Pounds Sterling) made payable to "Chartwatch" and crossed "a/c payee".

# 1 Introduction

This work is based on an analysis of the official British record sales charts compiled by CHART INFORMATION NETWORK), as published by trade paper MUSIC WEEK and chart newsletter HT MUSIC. It covers 2,822 entries for the 1995 chart year: 1,922 singles and 900 artist albums.

**UK Singles Chart** compiled by MILLWARD BROWN, Copyright © 1995 CIN LTD., London. Scoring System: CWSRPS<sub>rev3</sub>

**UK Artist Albums Chart** compiled by MILLWARD BROWN, Copyright © 1995 CIN LTD., London. Scoring: CWSRPS<sub>rev2</sub>

This analysis is Copyright © 2004 T. Zywietz, Neulingen. The scoring system CWSRPS is Copyright © 1981–1996 Chartwatch, Ilminster. The scoring systems CWSRPS<sub>rev</sub> is Copyright © 1996–2002 T. Zywietz, Neulingen.

*Date of Entry* refers to the date when a record entered the charts for the first time, even when climbing from a position outside the scope of this work. For records entering before the start of the chart year, *Date of Entry* refers to the last time the record entered or re-entered the Top 150 or Top 200. An asterisk (\*) denotes either an uninterrupted chart-run at the start and/or the end of the chart year, or (when positioned in front of the date) chart action prior to 1995.

A record's chart run is not broken, even when absent for more than four weeks. A separate run is only established when a record is re-issued with a different catalogue number and/or on a different label. Exceptions from this rule are made for albums and some singles.

The first chart of the year 1995 is dated *14.01.1995* (compiled from sales data for 1.01.1995–7.01.1995 and published on 8.01.1995). The chart dated *7.01.1995* is based by 100% on sales from 1994. The 1995 chart year has 52 weeks.

Scope of the present work:

- *UK Singles Top 200*: 14.01.1995–6.01.1996
- *UK Artist Albums Top 150*: 14.01.1995–6.01.1996

For some entries I list a sales figure. This data refers to the total number of units sold by record companies to retailers (*trade deliveries*)—*not* actual 'over the counter' sales to customers (*retail sales*). These trade delivery figures are certified (only on request of the record company) by the BPI – BRITISH PHONOGRAPHIC INDUSTRY LTD. to its members as follows:

|            | <i>for singles:</i> | <i>for albums:</i> |
|------------|---------------------|--------------------|
| ★ Platinum | 600,000 units       | 300,000 units      |
| ● Gold     | 400,000 units       | 100,000 units      |
| ○ Silver   | 200,000 units       | 60,000 units       |

I have included all certifications awarded until the end of January 1996. Please note that my data is only complete for entries that either have (re)entered the Top 75 or were certified *since* 1994.

If you have any questions about this booklet or the UK charts, please e-mail me: [zobbel@zobbel.de](mailto:zobbel@zobbel.de), or visit my website at <http://www.zobbel.de> or the Chartwatch site at <http://www.chartwatch.co.uk>

Readers might like to know that this booklet is the latest in a series that began in 1983. From 1983 to 1995, the annual CHARTWATCH summary booklet was compiled by David Longbottom from the charts published in RECORD MIRROR and MUSIC WEEK. Up until early 1991, this means a Top 100 singles and album chart. The demise of RECORD MIRROR in 1991 meant that both charts were reduced to a Top 75. In 1996, Tobias Zywietz took over compilation of the booklet, and used the charts in HIT MUSIC which extended the MUSIC WEEK charts to a Top 200. All previous booklets are available from:

Chartwatch, 34 Brybank Road, Hanchett Village, Haverhill, Suffolk, CB9 7WD, UK

The booklets for 1985 to 1995 cost £2.00 each. Similar summaries have been produced for the years 1961, 1962, 1963, 1964, 1965, 1966 and 1967, but including only singles charts; these are £1.20 each. A summary booklet for the 1983 singles chart, but without chart runs, is available for £1.40, and a similar booklet for 1984, but including both singles and albums charts, costs £1.50. The booklets from 1996 onwards cost £2.50 each. Please send a cheque (in Pounds Sterling) made payable to "Chartwatch" and crossed "a/c payee".

## 5.1 Most Weeks on Chart in 1995 (Top 150/200)

| Wks | Title - Artist   | Wks | Title - Artist   |

**General Notes:**

1. Figures not compiled by myself are taken from one of these sources: *Music Week*, *BPI Statistical Handbook 1996* (and earlier editions).
2. Base for the *quotas* for Singles, Artist Albums & Compilations is 1996; i.e. the weekly sales average of 1996 (in each category) equals 1. Base for the Budget Albums chart quotas is the respective 1997 figure. For a detailed introduction to my scoring system please confer my website.
3. The weekly sales figure for Numbers Ones—where available—is expressed in *thousand*

*units*, *qv.* table 3. Most of this data is taken from Alan Jones' charts columns in *Music Week*.

4. The figures for *New Chart Entries* do not include re-entries, but the Top 75 figures (Compilations: Top 20) include climbing new entries.
5. The *New Releases* data is taken from the weekly listings in *Music Week* and differs substantially from figures published by the BPI. Actual *date of release* is generally *chart date -12*.
