2000 Chart Booklet

*compiled by Tobias Zywiets*

# 1 Introduction

This work is based on an analysis of the official CHART INFORMATION NETWORK charts as published by trade paper MUSIC WEEK and its sister newsletter HIT MUSIC. It covers 3,004 entries for the 2000 chart year: 1,950 singles, 933 artist albums & 121 budget albums.

**UK Singles Top 200** compiled by MILLWARD BROWN, Copyright © 2000 CIN LTD., London. Scoring System: CWSRPS<sub>rev3</sub>

**UK Artist Albums Top 200** compiled by MILLWARD BROWN, Copyright © 2000 CIN LTD., London. Scoring: CWSRPS<sub>rev2</sub>

**UK Budget Albums Top 10** compiled by MILLWARD BROWN, Copyright © 2000 CIN LTD., London. Scoring: CWSRPS<sub>zb</sub>

This analysis is Copyright © 2000–2001 T. Zywiets, Neulingen. The scoring system CWSRPS is Copyright © 1981–1996 Chartwatch, Ilminster. The scoring systems CWSRPS<sub>rev</sub>, CWSRPS<sub>zb</sub> and CWIRPS are Copyright © 1996–2001 T. Zywiets, Neulingen.

*Date of Entry* refers to the date when a record entered the charts for the first time, even when climbing from a position outside the scope of this work. For records entering *before* the start of the chart year, *Date of Entry* refers to the last time the record entered or re-entered the Top 200.

A record's chart run is not broken, even when absent for more than four weeks. A separate run is only established when a record is re-issued with a *different* catalogue number and/or on a different label. Exceptions from this rule are made for albums and some singles.

An asterisk (\*) denotes an uninterrupted chart-run at the start and/or the end of the chart year.

Scope of the present work:

- *UK Singles Top 200*: 15.01.2000–6.01.2001
- *UK Artist Albums Top 200*: 15.01.2000–6.01.2001
- *UK Budget Albums Top 10*: 15.01.2000–6.01.2001

The first chart of the year 2000 is dated *15.01.2000* (compiled from sales data for 2.01.2000–8.01.2000 and published on 9.01.2000). The chart dated *8.01.2000* is based by over 75% on sales from 1999. The 2000 chart year has 52 weeks.

A diamond (◇) denotes a budget album, a club (♣) denotes a compilation album.

For some entries I list a sales figure. This data refers to the total number of units sold by record companies to retailers (*trade deliveries*)—*not* actual 'over the counter' sales to customers (*retail sales*). These trade delivery figures are certified (only on request of the record company) by the BPI – BRITISH PHONOGRAPHIC INDUSTRY LTD. to its members as follows:

	<i>for singles:</i>	<i>for albums:</i>
★ Platinum	600,000 units	300,000 units
● Gold	400,000 units	100,000 units
○ Silver	200,000 units	60,000 units

I have included all certifications awarded until the end of January 2001. Please note that my data is only complete for entries that either have (re)entered the Top 75 or were certified *since* 1994.

**General Notes:**

- Figures not compiled by myself are taken from one of these sources: *Music Week*, *Hit Music*, *BPI Statistical Handbook 2001* (and earlier editions).
- Base for the quotas for Singles, Artists Albums & Compilations is 1996; i.e. the weekly sales average of 1996 (in each category) equals 1. Base for the Budget Albums chart quotas is the respective 1997 figure. For a detailed introduction to my scoring system please confer my website.
- The weekly sales figure for Numbers Ones—where available—is expressed in thousand units, qv. table 3. Most of this data is taken from Alan Jones' charts columns in *Music Week*.
- The figures for *New Chart Entries* do not include re-entries, but the Top 75 figures (Compilations: Top 20) include climbers.
- The *New Releases* data is taken from the weekly listings in *Music Week* and differs substantially from figures published by the BPI. Actual date of release is generally chart date-12.
