**EDITORIAL**

My mate Tony was a few years older than me and he could remember the early Sixties and how unexciting the music scene had been before the Beatles appeared. I remember the awful years before Punk shook things up. Both periods had the same thing in common: Teen Idols. In the late Fifties, the death of Buddy Holly made a nation mourn but also some A&R men rub their hands with glee. The time was ripe for carbon-copy Buddies with awful kitsch songs and a cuteness that made Rockers wince. In the mid-Seventies all that resurfaced thanks to the Osmonds and David Cassidy. It was no accident that Donny Osmond recorded *Puppy Love*, one of the forgotten "classics" of the first teen era written by the archetypal teen idol Paul Anka. It's also no accident that Boyzone recorded *Love Me For A Reason*, one of the Osmonds' biggest hits.

The problem with teen idols is that they don't have the staying power. Most teen idols are not writing their own songs, and relying on a pretty face will only continue your career until the wrinkles appear. To have a career of any length, the teen idol has to have a distinctive voice. Most hit artists start their decline in year three, having had a semi-successful year establishing themselves, often as an "underground" act followed by a year at the top. From year four onwards the game is to slow the decline: no-one, not even the Beatles or Elvis Presley, has achieved a higher score than they did in the second year of their careers. The problem with teen idols derived from the recent "make-a-star" TV shows, is that they are denied year one. Not learning the game the hard way makes them instant stars with huge hits (Hear'Say's first single was a phenomenal seller, as were Will Young's and Gareth Gates'), but the downside is that they are already on the road to decline, without the grounding on how to reduce or prolong their careers.

The other aspect of the teen idol phenomenon is what happens to the rest of popular music. Being "pop" is seen as a failing or a pandering to the men in suits at the record companies. So the music gets less melodic, harder and charged with testosterone. During the early Sixties the Rockers, such as were left, sold out. Elvis moved into musicals and big ballads; Jerry Lee Lewis went into Country. Chuck Berry went to jail and Little Richard went to church. Rock'n'Roll was effectively emasculated. So was R&B, which became Soul. Ray Charles discovered Country and violins, and Sam Cooke went Pop. When the Monkees appeared in late 1966 we saw the beginnings of Heavy Metal which had progressed from Cream and Hendrix to Black Sabbath and Deep Purple by the time the Osmonds were around. At the same time Progressive Rock came into existence, and were Emerson, Lake & Palmer and Yes really an improvement on Pink Floyd and the Soft Machine? When Kylie and Jason Donovan first came on the scene in 1989, Grunge was developing. In 2002 rock bands are recycling Grunge.

Bring on the next musical revolution when pop and rock become one again!

---

**PREVIOUS BOOKLETS**

Readers might like to know that this booklet is the latest in a series that began in 1983. From 1983 to 1995, the annual *Chartwatch* summary booklet was compiled by David Longbottom from the charts published in *Record Mirror* and *Music Week*. Up until early 1991, this means a Top 100 singles and album chart. The demise of *Record Mirror* in 1991 meant that both charts were reduced to a Top 75. In 1996, Tobias Zywiets took over compilation of the booklet, and used the charts in *Hit Music* which extended the *Music Week* charts to a Top 200. All previous booklets are available from:

Chartwatch, 34 Brybank Road, Hanchett Village, Haverhill, Suffolk, CB9 7WD, UK

The booklets for 1985 to 1995 cost £2.00 each. Similar summaries have been produced for the years 1961, 1962, 1963, 1964, 1965, 1966 and 1967, but including only singles charts; these are £1.20 each. A summary booklet for the 1983 singles chart, but without chart runs, is available for £1.40, and a similar booklet for 1984, but including both singles and albums charts, costs £1.50. The booklets from 1996 onwards cost £2.50 each. Please send a cheque (in pounds Sterling) made payable to "Chartwatch" and crossed "a/c payee".

---

**Corrections To The 1996 Edition**

Since the publication of the 1996 edition a small error has come to light, namely a mixup between positions 42 and 43 on the Singles Chart for 23.03.1996:

**Beverley Knight**  
 Moving On Up (On The Right Side)  
 42 88 140.

**Lush**  
 Ladykillers  
 23.03.1996  
 5.48 22 32 43 83 145 171.

09.03.1996  
 21.19

# 1 Introduction

This work is based on an analysis of the official British record sales charts compiled by THE OFFICIAL UK CHARTS COMPANY (formerly CHART INFORMATION NETWORK), as published by trade paper MUSIC WEEK, sister newsletter HIT MUSIC and independent chart newsletter CHARTS+PLUS. It covers 4,140 entries for the 2002 chart year: 2,690 singles, 1,063 artist albums, and 387 budget albums.

**UK Singles Chart** compiled by MILLWARD BROWN, Copyright © 2002 OCC LTD., London. Scoring System: CWSRPS<sub>rev3</sub>

**UK Artist Albums Chart** compiled by MILLWARD BROWN, Copyright © 2002 OCC LTD., London. Scoring: CWSRPS<sub>rev2</sub>

**UK Budget Albums Chart** compiled by MILLWARD BROWN, Copyright © 2002 OCC LTD., London. Scoring: CWSRPS<sub>zb</sub>

This analysis is Copyright © 2002–2003 T. Zywietz, Neulingen. The scoring system CWSRPS is Copyright © 1981–1996 Chartwatch, Ilminster. The scoring systems CWSRPS<sub>rev</sub>, CWSRPS<sub>zb</sub> and CWIRPS are Copyright © 1996–2002 T. Zywietz, Neulingen.

A diamond (◇) denotes a budget album, a club (♣) denotes a compilation album. *Date of Entry* refers to the date when a record entered the charts for the first time, even when climbing from a position outside the scope of this work. For records entering *before* the start of the chart year, *Date of Entry* refers to the last time the record entered or re-entered the Top 200.

A record's chart run is not broken, even when absent for more than four weeks. A separate run is only established when a record is re-issued with a *different* catalogue number and/or on a different label. Exceptions from this rule are made for albums and some singles.

An asterisk (\*) denotes an uninterrupted chart-run at the start and/or the end of the chart year.

The first chart of the year 2002 is dated *12.01.2002* (compiled from sales data for 31.12.2001–5.01.2002 and published on 6.01.2002). The chart dated *5.01.2002* is

based by over 80% on sales from 2001. The 2002 chart year has 52 weeks.

Scope of the present work:

- *UK Singles Top 75+125*: 12.01.2002–4.01.2003
- *UK Artist Albums Top 200*: 12.01.2002–4.01.2003
- *UK Budget Albums Top 50*: 12.01.2002–4.01.2003

Please note this rule of the *compressed* version of the singles charts, the only version published since 12.05.2001:

## 3.1 Singles Chart: Positions 76–200

A single which, in the normal course of events, would appear between positions 76 and 200 of the combined Singles Chart is excluded if its sales have fallen for two or more consecutive weeks AND have fallen by more than 20% in the past week. Once excluded in this way, a record will only re-appear in the chart if its sales increase. Records excluded by this rule are shown on the printed chart report with their sales index and asterisks (\*\*\*) in place of a chart position.

For some entries I list a sales figure. This data refers to the total number of units sold by record companies to retailers (*trade deliveries*)—*not* actual 'over the counter' sales to customers (*retail sales*). These trade delivery figures are certified (only on request of the record company) by the BPI – BRITISH PHONOGRAPHIC INDUSTRY LTD. to its members as follows:

	<i>for singles:</i>	<i>for albums:</i>
★ Platinum	600,000 units	300,000 units
● Gold	400,000 units	100,000 units
○ Silver	200,000 units	60,000 units

I have included all certifications awarded until the end of January 2003. Please note that my data is only complete for entries that either have (re)entered the Top 75 or were certified *since* 1994.

If you have any questions about this booklet or the UK charts, please e-mail me: [zobbel@compuserve.com](mailto:zobbel@compuserve.com), or visit my website at <http://www.zobbel.de> or the Chartwatch site at <http://www.chartwatch.co.uk>
